Sparks Digital LLC

Openly working with AI to build practical software, voice tools, and automation for real life.

CAPABILITY STATEMENT

WHO WE ARE

An Indiana small business that partners with AI to build tools that make public services **accessible, efficient, and safer** for the people who rely on them most, with a special focus on residents with disabilities and other vulnerable groups.

CORE COMPETENCIES

- **Digital Accessibility (ADA Title II / WCAG 2.1 AA):** automated and human-reviewed audits of public websites and documents, prioritized remediation plans, and plain-language compliance reporting aligned with the DOJ Title II web accessibility rule.
- **Custom Software & Automation:** workflow automation, internal tools, data pipelines, and API integrations that reduce manual work for small teams.
- **AI-Assisted Operations:** responsible use of AI agents for document review, research, quality checks, and voice-enabled tools, with a human accountable for every deliverable.
- **Commercial Products & Supplies:** sourcing and drop-ship fulfillment of commercial off-the-shelf items for state and local agencies.

DIFFERENTIATORS

- **Accessibility-first by design.** We build to WCAG 2.1 AA and check keyboard, screen-reader, and plain-language use.
- **AI speed, human accountability.** Our AI partners handle scale; Garrett personally reviews and signs off on all work.
- **Micro-purchase friendly.** Fixed-price, clearly scoped offers sized for purchase cards and small procurements.
- **Local and responsive.** Based in Hendricks County, serving Central Indiana and beyond.

DEMONSTRATED CAPABILITIES

- **ADA Title II Website Auditor:** an in-house tool, built and tested, that produces accessibility briefs for public-sector homepages.
- **Live data APIs:** public real-estate data services published on the Apify and Zyla API marketplaces.

WHERE WE ARE HEADED

Coordinated teams of AI agents that audit and improve public digital services at scale, so accessibility becomes the default. Longer term, adaptive AI learning tools that adjust content and format to each learner's strengths and challenges, helping people build toward successful careers.
